The list is provided for information only and is not an endorsement for any particular service provider!

Verify licensing: For full contracting work (especially defensible space or major landscaping), check with the California Contractors State License Board to ensure licenses are current. Link Here

Local directories: Community service directories (e.g., Lake Almanor Country Club service listings) often list local providers not found online.

References matter: Because some local businesses have limited web presence, asking neighbors for recommendations can yield additional contacts.
