

PRESS RELEASE

The Board and participating members of the Plumas County Fire Safe Council would like to invite you to their monthly meeting on Thursday, December 10, 2015 from 9:00 to 11:00 AM. The meeting will take place at the Plumas County Planning & Building Services Conference Room; the Planning & Building Services office is located at 555 Main Street in Quincy.

The Council will be discussing items related to the work that they are doing throughout the County as they work to implement the Plumas County Community Wildfire Protection Plan. This includes thinning of over-grown forests, educating communities on the importance of active management of fuels around homes, supporting the development of Firewise communities and providing consultations and assistance to residents that need help making their homes fire safe.

The Council continually is looking for communities interested in developing hazardous fuel reduction projects to increase their resilience to wildfire. The mission of the Council is: ***“To reduce the loss of natural and human made resources caused by wildfire through Firewise Community programs and pre-fire activities.”*** To learn more about the Plumas County Fire Safe Council, visit our website at www.plumasfiresafe.org.
