

PRESS RELEASE

Plumas County Fire Safe Council Meeting 2/9/12

The Plumas County Fire Safe Council's regularly scheduled monthly meeting will be held on Thursday, February 9, 2012 at the Plumas County Planning & Building Services office, located at 555 Main Street in Quincy, from 9:00 to 11:00 AM.

At the February meeting the Council will be discussing progress towards current wildfire mitigation projects and implementation progress on our Community Wildfire Protection Plan.

Fire Safe Council members are encouraging residents to take advantage of this excellent weather to be outdoors, plus get a little exercise, by beginning to create and maintain their defensible space. California residents are required to have 100 feet of defensible space around all structures, or to their property lines. For additional information on "Defensible Space" visit our website at www.plumasfiresafe.org and click on the link to Defensible Space. If your community would like to learn more about how to mitigate the adverse impacts from a wildfire you can contact the Coordinator from our website.

The Plumas County Fire Safe Council invites residents with an interest in preventing and mitigating impacts from wildland fires, to their homes or communities, to become members. The Council is a coalition of citizens, businesses, fire departments, and representatives of local, state and federal government agencies. The mission of the Council is: ***"To reduce the loss of natural and manmade resources caused by wildfire through Firewise Community programs and pre-fire activities."***
