

PRESS RELEASE

Plumas County Fire Safe Council Meeting 9/10/09

The Plumas County Fire Safe Council cordially invites interested citizens to participate in their regularly scheduled monthly meeting. The meeting will be held on Thursday, September 10, 2009 at the Plumas County Planning and Building Services office, from 9:00 to 11:00 AM. The Planning & Building Services office is located at 555 Main Street in Quincy.

At the September meeting, there will be status updates of PC FSC grant funded wildfire mitigation activities that provide for implementation of the Community Wildfire Protection Plan and updates of HFQLG projects planned by the Lassen and Plumas National Forests around Plumas County Communities at Risk.

Brian West, Council Chair, encourages Plumas County residents and visitors to continue being safe with fire so that our County's natural beauty and resources will not be destroyed, or homes lost. He reminds residents that, "while it has been a quiet season so far, we are still well within fire season, and the potential for large fires continues". Brian went on to say, "Plumas County has unfortunately experienced a number of large damaging wildfires in past Septembers. So please be careful".

The Plumas County Fire Safe Council is a coalition of citizens, businesses and representatives from local, state, and federal government agencies, which share a common interest in preventing loss of life and minimizing loss of property from wildland fires. The mission of the Fire Safe Council is: ***"To reduce the loss of natural and manmade resources caused by wildfire through pre-fire activities."***

Everyone in Plumas County is welcome to become a member of the Council. For more information on the Fire Safe Council, visit our website at www.plumasfiresafe.org
