

The next meeting of the Almanor Basin Fire Safe Council has been scheduled for Tuesday, 8 February 2005, at 9:00 am at the West Almanor Fire Hall on Long Iron Driver, Lake Almanor West. Since the date was selected by WAFD Chief Mark Reno (and not myself), there's an excellent chance that THIS meeting will NOT be cancelled due to a snowstorm!

Agenda items for this meeting include information on residential parcel landscaping practices from Joe Waterman, and a possible new initiative involving the use of a warning sticker placed alongside the main breaker to advise firefighters of the presence of a standby generator with automatic switchover. If members have other items to add to the agenda, please let me know at your earliest convenience.

Hope to see you on the 8th! - Dale
